Call 467-3312 for more information.

## Child development

Educational and developmental intervention services offers community parents early intervention services designed to support families who have concerns or questions about their infant's or toddler's development.

EDIS officials said early intervention providers can help families identify if their child has a delay through an evaluation of the child's current abilities.

If your child has a delay, your family may be eligible for early intervention services.

The goal of early intervention is to make sure that all children are ready to learn when they reach school age, said EDIS officials.

If you are concerned with some aspect of your child's development or have questions about child development, stop by the EDIS office in Bleidorn Housing, building 5083 (next to the library) or call 468-7811 or 0981-183-811 to schedule an appointment.
